ALLERGY SEASON: Relief on the Way!

MARCH 14, 2017 | 6:00 PM – 7:30 PM

Spring is here, and for many that can mean debilitating allergies. Join Dr. Joshua Gibbs as he shares the latest treatment options, from medications to lifestyle changes. Learn about the connection between sinus issues and allergies and how different types of prescription and over-the-counter remedies are designed to provide relief.

Joshua Gibbs, DO, *Allergist/Immunologist*

EVERY 5 MINUTES:

A Woman in the US is Diagnosed with a Gynecologic Cancer

APRIL 11, 2017 | 6:00 PM – 7:30 PM

Could it happen to you, your mom, your sister, or another woman you love? Join Dr. Mehdi Kebria as he shares the most current research on gynecologic cancers and the most effective treatments, including innovative and less invasive surgical techniques. Learn about risk factors, early detection, and personalized treatments.

Mehdi Kebria, MD
*Asst. Clinical Professor, Department of Surgery,
Division of Gynecologic Oncology, City of Hope*
